

Cloud-based access control that seamlessly integrates with powerful video security.

Overview

Verkada Access combines enterprise-grade access control with a powerful, cloud-based management platform for a solution that's always simple, secure, and ready for scale. Starting with Verkada's Smart Controller, users are able to bring plug-and-play simplicity to managing doors and access across their organization. Smart Controllers work with your building's existing door hardware and readers. Once doors are connected, they're ready to be managed from any device via Verkada Command. The Verkada Command platform allows you to easily manage building access, schedules and users. Integration to active directory platforms ensure that employees are automatically configured, onboarded and offboarded. Through Verkada Command, access control and cameras are connected seamlessly to deliver real-time video analytics on access events. Using Verkada's industry-leading edge-based video processing, users are able to not only see what is happening at their points of entry, but also proactively take action for meaningful events.

Industry-Leading 10-Year Product Warranty

All Verkada hardware purchases are backed by our 10-year limited warranty. For more information, visit verkada.com/support/terms-of-sale.

Key Features

- Cloud-based access control for easy management across all sites and users
- Seamless integration with Verkada video security
- Secure Touchless Access with Bluetooth using Verkada's Pass App
- Manage all sites and users across your organization
- Works with existing door hardware and readers
- 10-year warranty on all hardware

Verkada's Cloud-Based Access Control

Hardware Reconsidered

Redesigned control panel that can be used with existing card readers

Easy to Scale

No servers, databases, or on-prem clients to manage – simply just plug-in and add doors

Centralized Management

Modern platform enables secure access on any device from anywhere in the world

The reliability of on-camera solid-state storage, with the accessibility of the cloud

Simple to Install

- No servers, thick or thin clients
- Doors come online and configure in minutes
- No added software or complexities like port forwarding

Easy to Use

- Centralized management for seamless access anywhere
- No training required to access doors, footage and features
- Access doors from any device
- Seamlessly add and integrate video security

Advantages of Cloud-Managed Solution

- Secure remote access on any device anywhere
- SAML-based integration with single-sign on (SSO) solutions
- Continuous updates with new features
- Instantly share live footage via SMS and email

Ready For Scale

- Cloud-based platform has no door/user limits
- Scale to thousands of doors across all locations
- No need to create virtual networks to sync access across sites

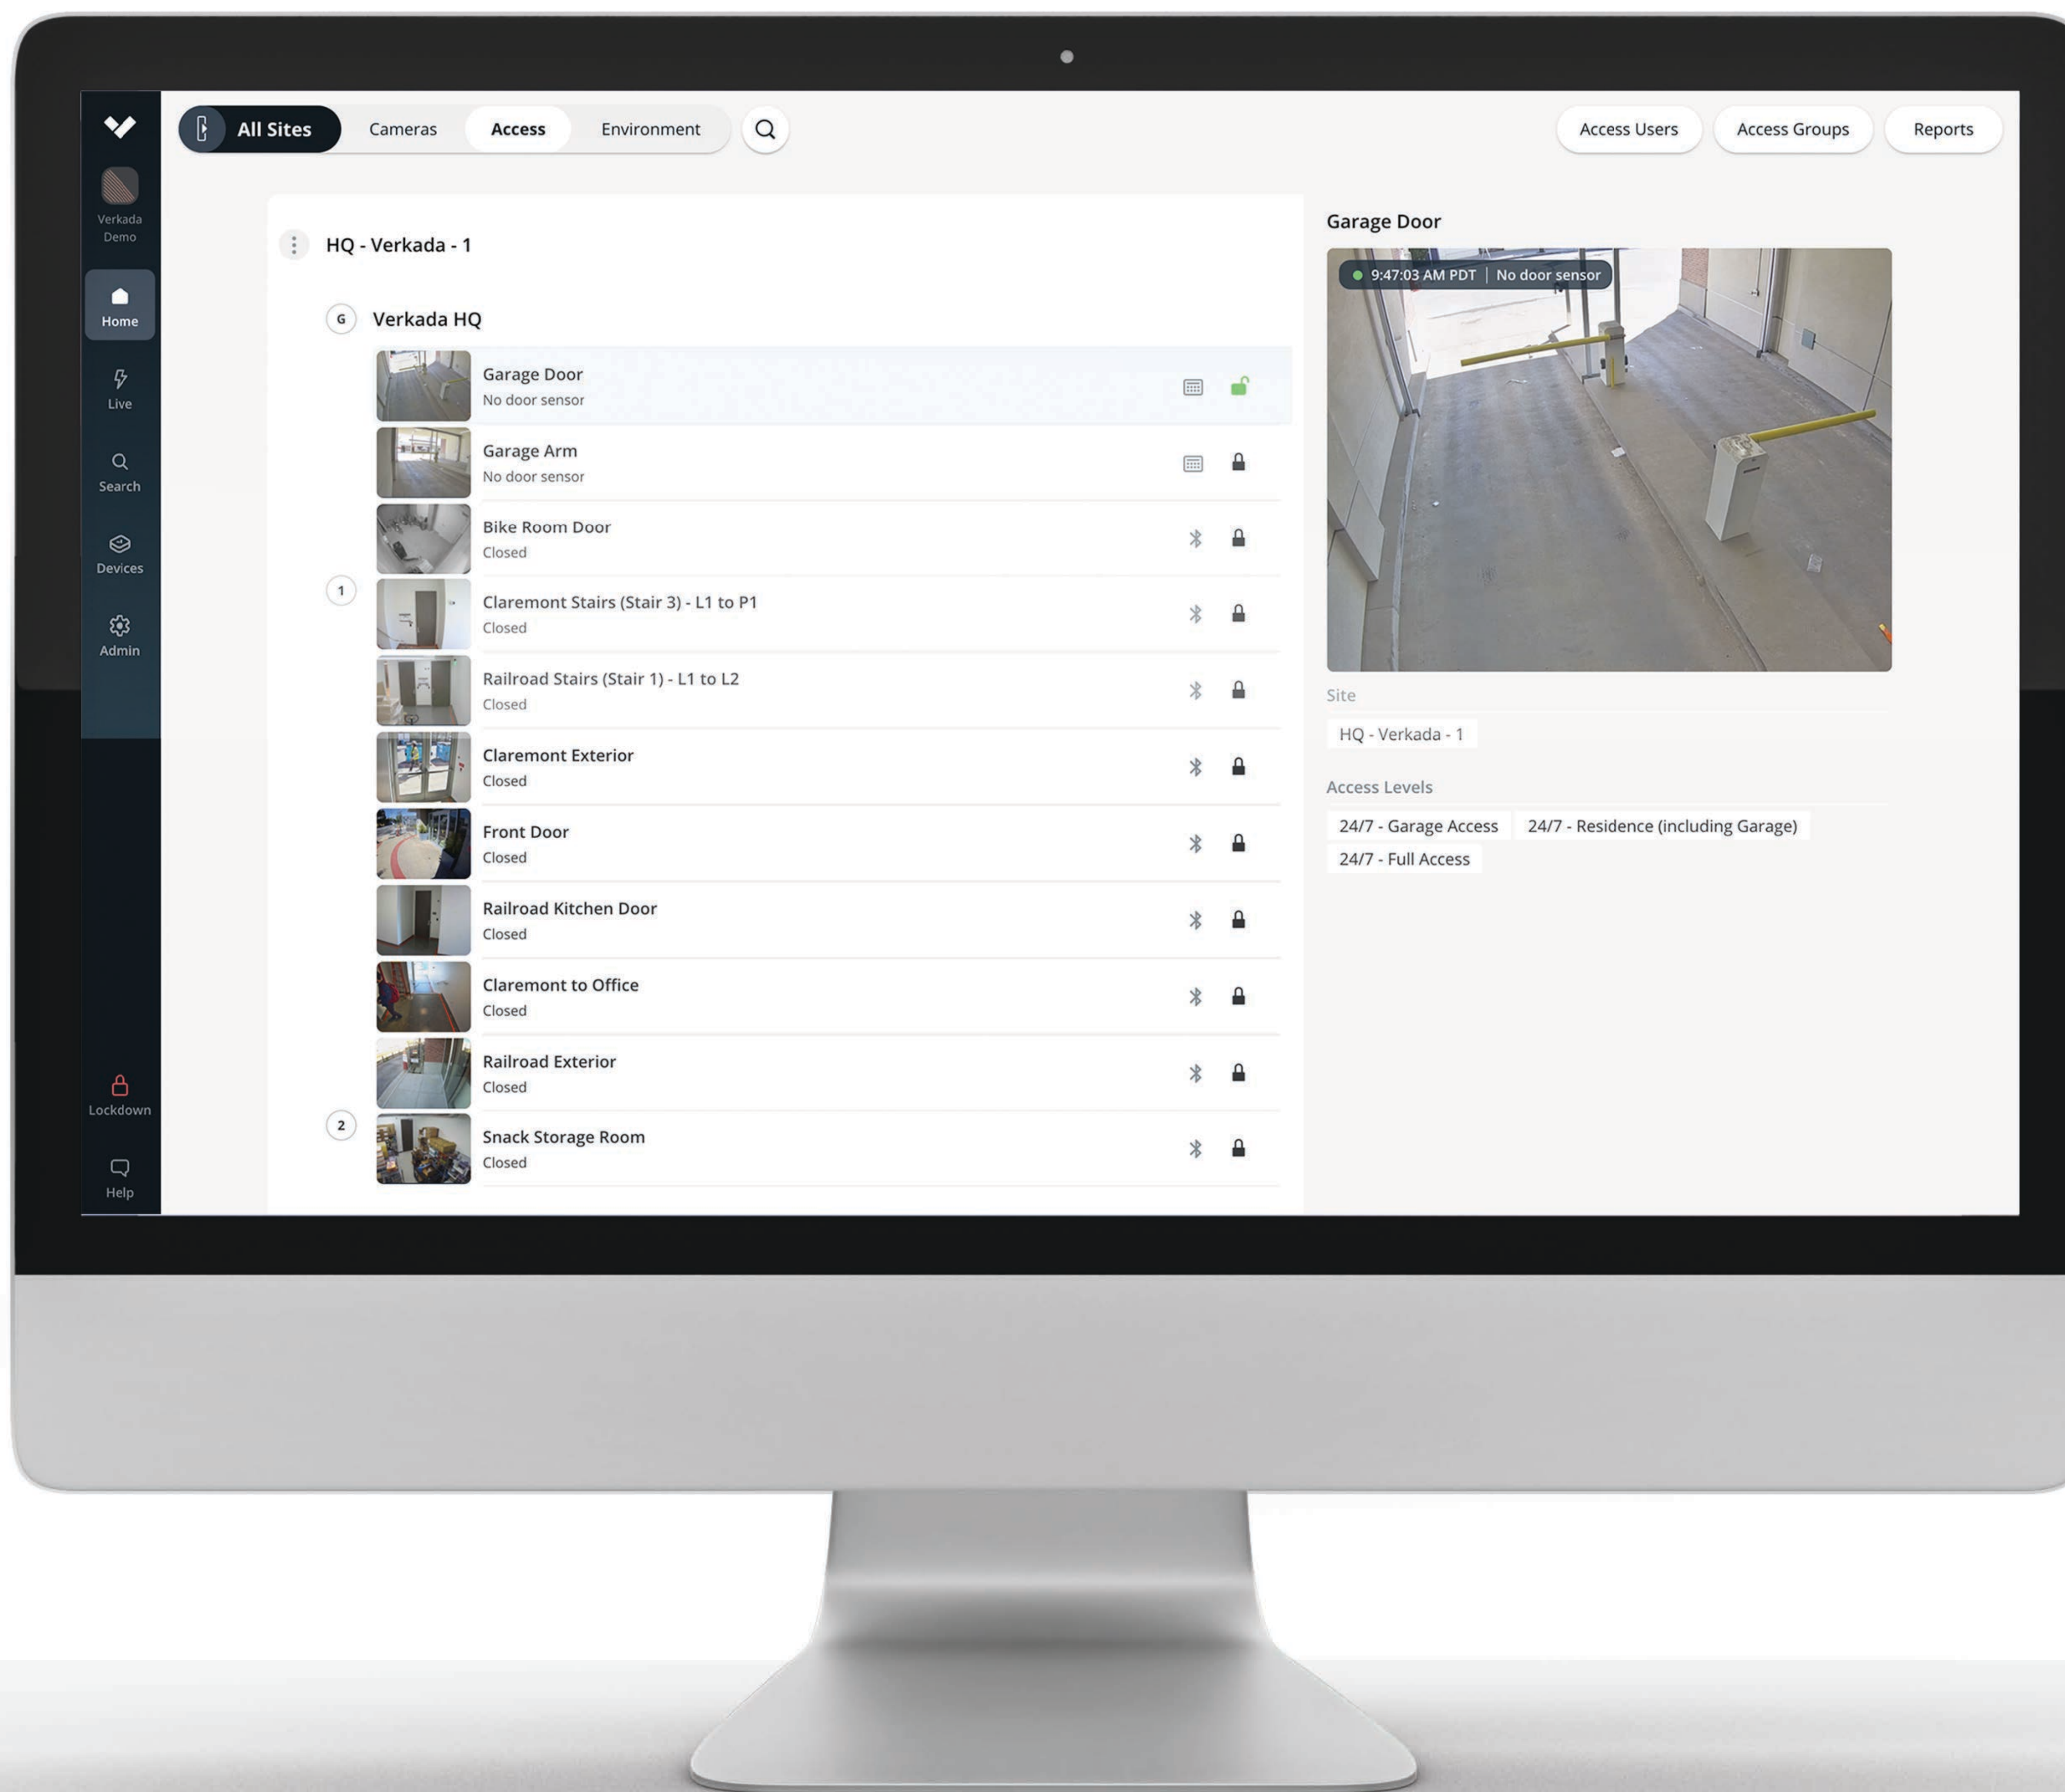

No Hidden Costs

- Hardware includes an industry-leading 10-year warranty
- Automatic firmware updates keep systems secure
- New features and enhancements are added at no additional costs

Access Software Overview

Powerful features to gain greater visibility and control into your sites

Command, Verkada's cloud-based management software, is designed to deliver simple access and management for all doors, cameras, and users across all sites from virtually anywhere in the world.

Door Management

- Instantly see door events including live and historical footage
- Filter by events such as unlocks, door opens, and access granted or denied
- Create custom schedules for any day of the week

Video Integration

- Associate existing Verkada cameras with doors for increased visibility
- Add multiple cameras to see events from multiple angles
- Quickly export video evidence for investigations

User Management and Permissions

- Import users, integrate with active directory, or add new users manually
- Control door access by user groups
- Assign multi-format access including cards, pins, and mobile access

Site Management

- Manage a limitless number of doors across any number of sites in your organization
- Access all your doors and cameras from Verkada's centralized Command platform

Touchless Entry via BLE

Verkada Pass App

Your digital key card to accessing buildings.

The Verkada Pass app makes it easy to unlock doors by just using your phone. By either tapping from inside the app or through Touchless Access made possible with Bluetooth, it has never been an easier, more convenient way to access buildings.

The Verkada Pass app is available on iOS and Android.

AC41 – Smart 4-Door Controller

Built from the ground-up, Verkada Access is security without the complexity.

Overview

- Simplified wiring with an integrated cable management system and screwless push-spring terminals.
- Works with 3rd party readers and credentials.
- Built-in testing interface for wired connections.
- Integrated power supply powers most door strikes and handles without additional wiring.

Key Features

- **Simple to Manage**
Cloud-managed controller configures instantly and updates automatically.
- **Always Reliable**
Built-in storage ensures uninterrupted door functionality.
- **Centralized Management**
Managing doors, permissions, and users from anywhere with Verkada Command.
- **Increased Visibility**
Seamlessly integrates with existing Verkada cameras for unparalleled visibility.

AC41

Tech Specs

| | | |
|--------------------------------------|--|---|
| Power Consumption (at 10-14V) | No Readers ~1000mA | 4 Wiegand Readers~2200mA |
| Power Supply | 160W PSU (capped at 100W for safety) | |
| RelayRex | Dry (External Power Supply) 6 Relays – 4 Door, 2 AUX at 5A / 30VDC | Wet (Powered by AC41) 12V – 700mA per relay max 24V – 350mA per relay max |
| Inputs | Nominal 5VDC 1Kohm to each input (resistors built-in) | |
| Contact Sensors | 4 Contact Sensors Nominal 5VDC 1Kohm to each input (resistors built-in) | |
| Dimensions | With Mount 415.6mm (L) x 319.6mm (W) x 111.74 (H) | Without Mount 415.6mm (L) x 319.6mm (W) x 105.74 (H) |
| Weight | 8.5kg | |
| Operating Temperature | 0°C ~ 50°C (32°F~ 122°F), 5-90% humidity | |
| Compliance | FCC, CE, UL 294, UL 62368-1/CSA C22.2, CAN/ULC-60839-11-1:2016, NDAA | |
| Connectivity | Ethernet: 100/1000Mbps RJ-45 cable connector for network connection USB 2.0 | |
| Included Accessories | Setup guide, screw pack | |
| Mounting Options | Dry wall anchors (M8) and screws (M5) | |

AD31 – Multi-Format Card Reader

Experience end-to-end Verkada Access Control

Overview

- Access doors using low and high frequency cards, as well as a mobile device with the Verkada Pass app.
- Two-way communication with an integrated LED to display door status for entry and events.
- Protected against the harshest environments with an IP66 and IK08 rating.
- Access and manage the AD31 from Verkada’s cloud-based Command platform.

AD31 Tech Specs

| | |
|---------------------------------|--|
| Dimensions | 120 x 76 x 21.5mm (4.7 x 3 x .85 in) |
| Low Frequency | HID Prox II 26-Bit (H10301), 37-Bit Wiegand HID H10304, 37-Bit Wiegand HID H10302, HID 35-Bit Corporate 1000 |
| High Frequency | MiFare / DESFire (CSN), NFC |
| Ratings | IP66, IK08 |
| Compliance | FCC, CE, UL 294, UL 62368-1/CSA C22.2 No. 62368-1, CAN/ULC-60839-11-1:2016 |
| Operating Temperature | -30° to 65° C (-22° to 149° F) |
| Controller Compatibility | Requires Verkada Access Controller (AC41) |
| Mounting | Standard single gang |
| Power Consumption | 200mA at 12V |

AD31 Wiring

| Wire Color | Abbreviation | Name |
|------------|--------------|---------|
| Black | - | Ground |
| Blue | B | RS485-B |
| Purple | A | RS485-A |
| Red | + | +12V IN |

Professional Monitoring Overview¹

Incidents are unpredictable. Ensure your sites are protected 24/7 with our professional monitoring service. Monitoring is provided by three fully redundant, U.S.-based, UL listed central stations with Five Diamond Certification from The Monitoring Association.

Assess the Situation

- With built-in video verification, agents can assess possible threats and screen out false alarms.
- If video verification is enabled, users will not be contacted unless incidents are confirmed as real alarms by an agent.

Make Contact

- When an alarm is raised, agents immediately call and send SMS messages to the predetermined contact list.
- If an agent is unable to reach any contacts, they can contact local emergency services to respond.

Take Action

- Once a threat is confirmed, agents will dispatch local first responders to the site address.
- All events can be reviewed, archived and accessed from Command for incident investigation.

Alarm License

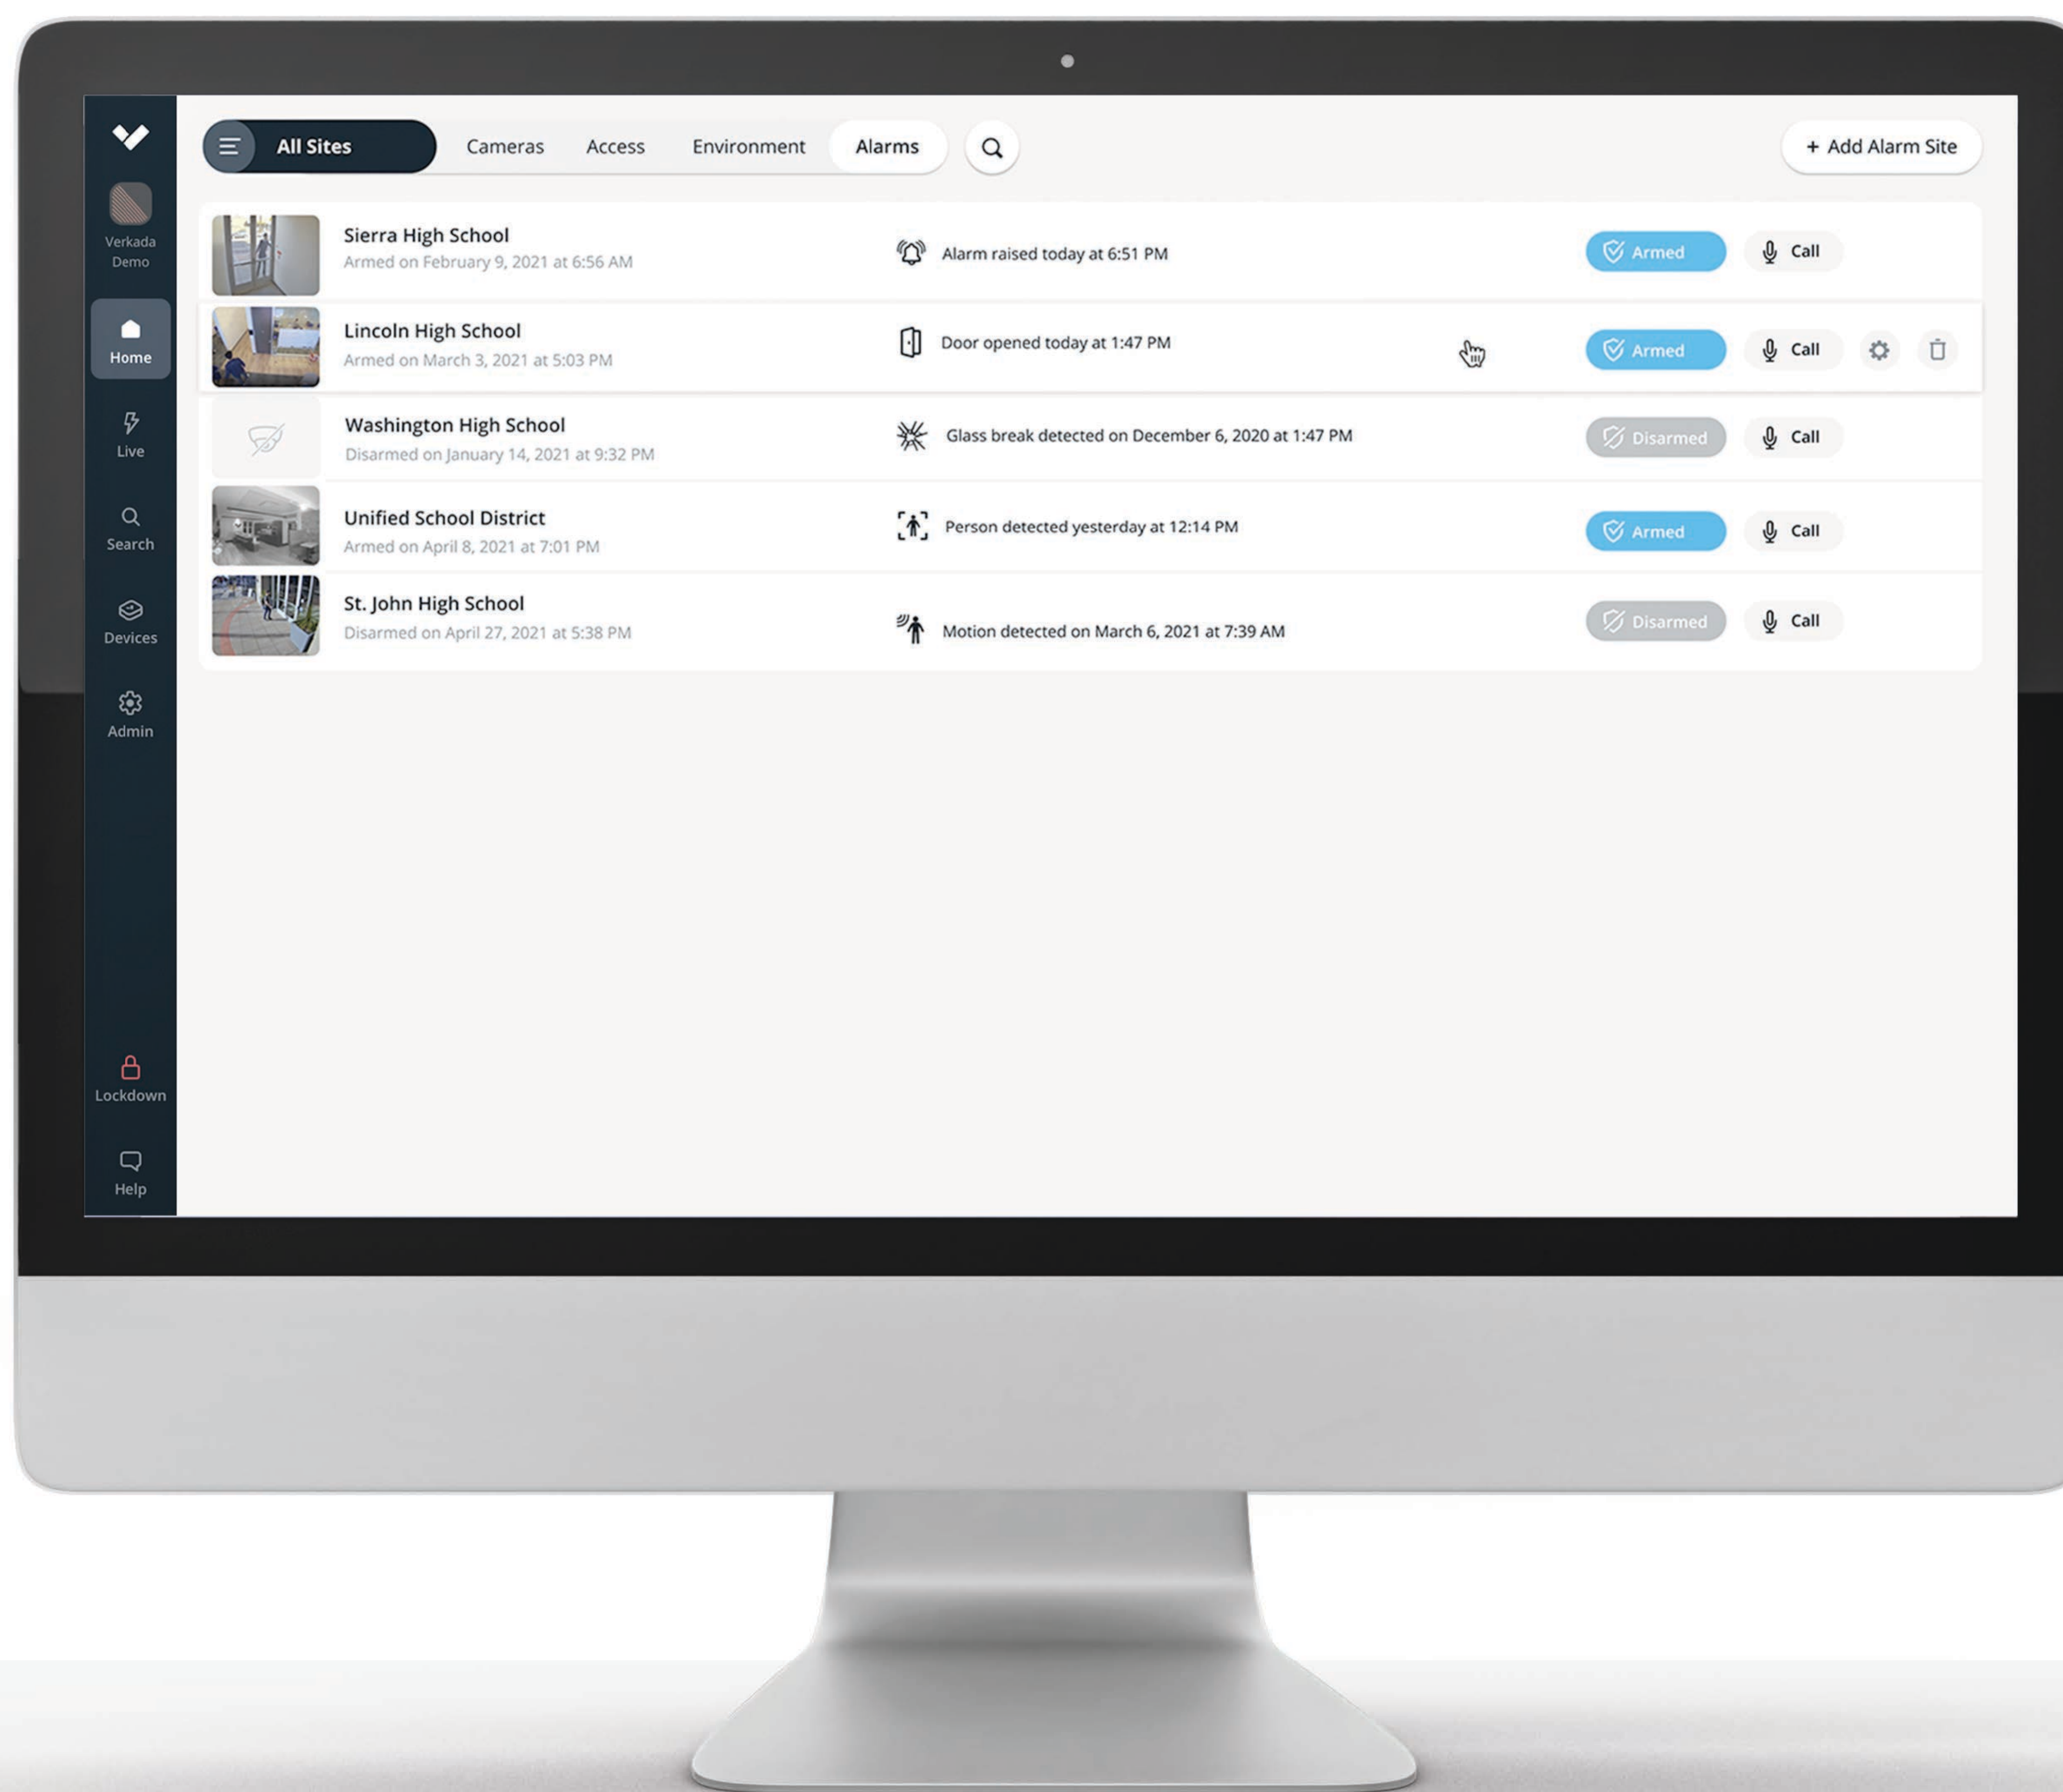

The Alarm License includes access to the cloud-managed Verkada Alarms platform and integrated professional monitoring. One Alarm License is required for each unique site address, with up to 32 monitored devices covered per license. Any Verkada cameras, doors, environmental sensors, and panel inputs that have been configured as alarm triggers will count as devices towards the 32 device limit.

An Alarm License is required for the BP41 Alarm Panel and BC51 Alarm Console.

¹ Monitoring is provided by Verkada's independent monitoring center partners.

Alarms Platform Overview

Seamlessly manage sites, configure alarm triggers, and customize alarm responses.

Alarms is powered by Verkada's Command Platform. This cloud-based management solution delivers secure remote access with an intuitive interface for ease-of-use.

Site Management

- See overview of current status and recent events from all sites.
- Schedule arming/disarming and configure keycodes for onsite management.
- Instantly view incidents and play back event footage with integrated Verkada video surveillance.
- Control access to your Alarm sites with role-based permissions.

Device Management

- Configure wired sensors and outputs on your Alarm Panel from Command with just a few clicks.
- Create alarm triggers based on events from any Verkada device.
- Manage fleet of devices from single dashboard.

Professional Monitoring Configuration

- Enable video verification of alarms by trained security professionals.
- Enable dispatch of emergency services.
- Configure "an ordered list" of contacts for monitoring agents to call and text when an alarm is raised.

Alarm Console Talk-Down

- From Command, initiate two-way video calls down to Alarm Consoles at any of your sites, from anywhere in the world.
- Make calls to Alarm Console to address staff, guests, or potential intruders.
